## REEForest Newsletter

Hello << Test First Name >>!

Welcome to the newsletter of the REEForest, a project co-funded by the European Union LIFE programme that aims to reverse the degradation of endangered Cystoseira Habitat

### New frontiers of underwater monitoring: ISPRA gets in the game!

The technological innovations of monitoring passes through REEForest project!

[Read more](#)

### Natural Capital: an essential tool

Natural capital is a crucial concept in REEForest, since it allows humans to quantify an ecosystem value. Otherwise how would we know if the restoration was successful?

[Read more](#)

### REEForest Events update

REEForest is not just a lot of field and lab work, but also many initiatives to tell what we do to protect and restore marine forests...

[Read more](#)

### The future legacy of Gyaros Island is about to begin

The researchers from the Greek Hellenic Centre for Marine Research (HCMR) are about to start the outplanting activities on Gyaros Island! After months of anticipation...
